

# Group 1 - Sprint 1 review report

(Samuel Sarimo, Niko Mehiläinen, Auri Laitinen)

## Done tasks during this sprint:

- A project team was formed. We selected 'Social Media Platform' as our project topic.
- Trello was set up as our project management tool.
- Project vision and a plan was written collaboratively. Documents were submitted to Moodle.
- ER-chart was modeled for DB
- Product backlog was populated with items that are relevant.
- Github repository was set up.
- Tech stack was thought out and described in [README.md](#).
- The initial application UI was designed with Figma.
- User stories were written for all major features of the app.

## What is in progress:

- Project maven setup.
- Implementing front-end.
- Implementing database.

## Obstacles we faced:

- We experience only minor obstacles.
- Difficulties finding templates for documenting.
- Time management.
